The Invest Punjab team headed by senior Punjab government officer Anirudh Tiwari won the Digital India Award-2016. This award was given for e-governance initiatives taken by the Punjab Government.

Er Krunesh Garg, Chief Environmental Engineer, Punjab Pollution Control Board, who is also the member of the project team, said this award was given for common platform developed for investors to obtain regulatory clearances as well as fiscal incentive approvals of different departments of the state through One-Step Clearance System (OSCS) developed by Invest Punjab.

Invest Punjab ensures world-class facilitation to the investor right from the conceptualisation of the project till commencement of its commercial operations. The OSCS includes features such as know your clearances, multiple handling clearances from multiple departments, common application form, one-time online document submission, online multiple payments in one go, online paperless processing and pre-feasibility within 10 days without any fee.

Garg further said Union Minister for Electronics and Information Technology Ravi Shankar Prasad gave away this award in a function organised at Vigyan Bhawan, New Delhi.

He said it was a joint effort of the project team of Invest Punjab and congratulated the team for its tireless efforts to facilitate the investor with this world-class OSCS.
